

UYOA TOUR PLAYERS: STEVE O'GRADY

THE ANALYST

Steve comes to the Tour after some extreme practice, lessons and secret rounds have all been undertaken in the attempt to take home the prize money from this event. However some corners have suggested that Steve now suffers from analysis paralysis with too much to think about and not enough time spent on his natural game.

Steve's "A" game is strong and has good ability in all area's. Though recently chipping has been an issue. Potentially this player is a strong contender as he has dedication, time to practise and a home driving range too.

Steve's speciality is a steady straight tee shot and has recently acquired some new woods to add to his armoury.

The shot handicaps were announced and Steve has not left the Driving Range since! This man must have shares in his local range.
